## The ScaleReady Proven Process

Our Partnership with T & NK Cell Therapy Programs

Simplify

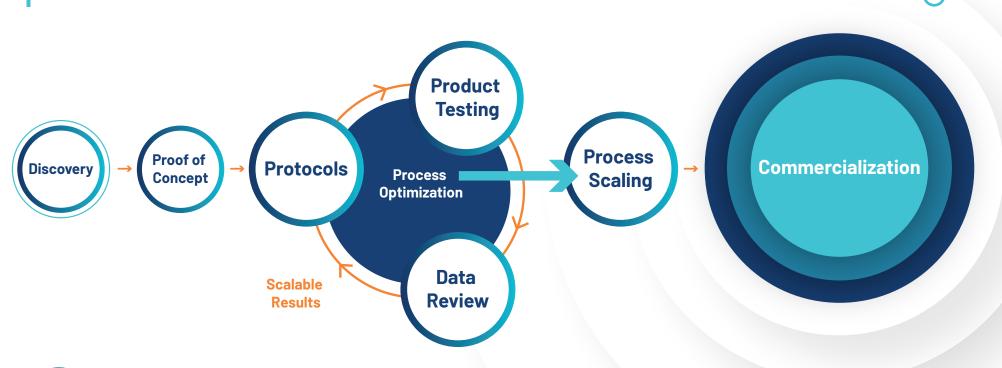

Streamline

Scale

Support

## Optimization Expertise

In Cell Therapy Manufacturing

scaleready.com

This is our proven process illustrating how ScaleReady works in a true partnership with your T and NK cell therapy program to enable the successful commercialization of your drug. This is a linear left-to-right, as well as a holistic view, Your cell therapy manufacturing of how at every stage, we look to simplify, streamline, and scale by offering expertise and support for your cell therapy process and product are ready for program. In an incredibly complex field, there are no shortcuts, and we strive for excellence alongside you by embracing market. Full scale-out is achieved, our core values of agility, tenacity, urgency, authenticity, and collaboration. Through our proven process, we deliver and drug approvals have been processed. ScaleReady deploys practical and viable solutions by providing the most simple, scalable, and versatile manufacturing products. Our process commercialization-level expertise is proven, as our products are represented in approved CAR-T drugs around the globe. and support to ensure that your supply The testing completed at this stage chain is secure. As new innovations are has 100% translational capabilities, Your custom protocols are created in full brought to production, we work with you and we prove to you the confidence collaboration with your ScaleReady optimization to continue to look for ways to simplify in the repeatability, consistency, expert and are designed for execution in test at further and standardize, to optimize and predictability of outcomes while minimum scale but planned for maximum scale for and employ cost-reduction efficiencies We supply our gold-standard products never sacrificing quality or costs. a fully streamlined and standardized process. We while never losing our hallmark quality risk-free with minimal investment in funds Your program tests at a minimum understand what the goal is, with a continued focus in materials and service. ScaleReady and time. Your dedicated team of experts scale are fully translational for on commercialization, excellence, and success, partnership continues in support and at ScaleReady arranges for samples or maximum scale for a completely focusing on simplification and elimination of service for lifetime success. in-person demonstrations, to set the stage streamlined and scaled process. complexities before automating what's left. for process development through custom protocols, testing, and data reviews. **Product Testing Process** Proof of Commercialization **Protocols Discovery** Process Concept Scaling **Optimization** Data Scalable Our Technical Account Review Managers and Field **Application Specialists** discover more about your **b** Scalable results are achieved once Successful process scaling is achieved with testing at minimum company and program, goals, the results at minimal effort and scale to optimize, then proving results are repeatable, consistent, definitions of success, pain minimum scale are perfected, and and predictable at large scale. We prove the ability to scale your points, and challenges. this will produce applicability at a Together, your ScaleReady process optimization program and process up, scale it out and critically have the ability to full-scale level. Results from the expert and team members join to review data for linearly scale down without sacrificing the quality of results or those

optimal results. We work with you to ensure the

until we have achieved scaleable results and the process is streamlined and simplified.

highest yield in quality and desired results. We commit

to sending samples and completing additional testing
